

To Whom It May Concern,

The Brotherhood & Leadership Program has been a blessing to me and my son. My son was failing his Language Arts class and I had tried everything to try and help him improve his grade. He would stay after school for tutoring twice a week, I would work extra hard with him at home, and I would make surprise visits to his classroom, but nothing seemed to work. He continued to sit in class and goof off and not get any of his work done. It got to the point where the teacher would kick him out of class everyday for any little thing that he did. Then one day Mr. Jackson called and told me that he would get this issue resolved. He said that he would sit in that class with Ed for as long as it took for him to get a passing grade. Mr. Jackson sat in that class with Ed everyday for the next 6 weeks, and Ed received a passing grade for the 3rd Quarter. After Mr. Jackson stopped attending the class, Ed continued to do well. Mr. Jackson and the Brotherhood Program have been a true blessing to me and my family and I hope that they will be around for many years to come.

Sincerely,

Pamela Shepherd
