To Whom It May Concern:

The Brotherhood Leadership Program is important to Charles Carroll Middle School (CCMS) because we want our children to excel and aspire to go to college. The Brotherhood Leadership Program not only shares with us the vision of becoming a full service community school, they work with us to implement that vision.

CCMS has collaborated with the Brotherhood Leadership Program for the past year. Currently, we are working with them on a program that brings positive male role models to CCMS during the school day, after-school to co-learn and collectively develop leadership capacities.

The core staff of the Brotherhood Leadership Program and I share a vision of the community school, backed by research, that will meet the needs of a targeted group of students in a more comprehensive fashion. With your support, we plan to implement a series of interventions and strategies that bring together parents and teachers, along with a number of other community and supports and resources to meet real needs. We must address student needs in a more holistic way if we want them to achieve and aspire to college and the workforce.

Your support of the Brotherhood Leadership work in Prince George's County Public Schools will help us be more effective and far reaching in our joint efforts.

Thank you,

Dr. Eric Wood
Principal,
Charles Carroll Middle School
